

Extended - Form 1077 Mandatory Use Date

We are extending the mandatory use date for the revised Form 1077, *Uniform Underwriting and Transmittal Summary*. This means Seller/Service providers are **not** required to use the revised form on or after February 1, 2020, as we announced in *Single Family Seller/Service Provider Guide (Guide) Bulletin [2019-7](#)*. However, Seller/Service providers may use the updated version of the form immediately if they choose to.

Also as announced in Bulletin 2019-7, Freddie Mac and Fannie Mae continue to jointly review this form and are discussing additional changes.

We will notify Seller/Service providers of those changes and the new effective date for the revised form in a future Guide Bulletin.
