

New FHA Catalyst Enhancements Announced Today

As part of its ongoing technology modernization effort, the Federal Housing Administration (FHA) is announcing the following enhancements to its Single Family FHA Catalyst technology, available today.

FHA Catalyst Mortgagee Administrator Role Improvements

FHA has implemented new Mortgagee Administrator functionalities that allow for better management of case binder submissions for pre-endorsement reviews. Details of these revised functionalities can be found on the [FHA Catalyst: User Access Management webpage](#), which includes the updated [FHA Catalyst Mortgagee Administrator Role User Guide](#).

To support FHA Catalyst Mortgagee Administrators, FHA has made available a series of training videos consisting of six “how-to” tutorials for Mortgagee Administrators on the following topics:

- [Creating a User](#)
- [Resetting a Password](#)
- [Accessing a User Roster Report](#)
- [Reactivating a User](#)
- [Freezing/Unfreezing a User](#)
- [Transferring a Case Servicing Binder](#)

The tutorials can be accessed on the [FHA Catalyst User Access Management webpage](#) on [hud.gov](#).

FHA Catalyst Servicing Binder Submission Capabilities

The [FHA Catalyst: Case Binder Module](#) can now accept servicing binders from FHA-approved servicers when requested by FHA for various servicing oversight and monitoring reviews. This new capability provides a streamlined process for the submission of servicing binders to FHA. Servicers will receive an email notification with instructions when binders are requested.

For more information, review the FHA Catalyst: Case Binder Module User Guide and User Guide Change Overview available on the [FHA Catalyst: Case Binder Module webpage](#).
